MEDIEVAL VIOLIN FOR SALE

As I am no longer performing in public *(for health and age reasons)* so I am selling my Medieval Violin which was made by the Early Music Shop. The string length has been modified by shortening the tailpiece – the modifications were made by a luthier. It comes complete with a hard case and gig stand. There is NO bow. It has a flat bridge and 4 gut strings and is tuned GDGD *(the lowest G corresponding to the bottom string of a modern violin)* making it ideal for using it as a drone instrument. It can be viewed in Herefordshire

Price £495

For further details please email Terry Carter: tcarter@tcarter.force9.co.uk

I also have a Vihuela de Arco *(by Merion Attwood*), Bass Viol and Tenor Rebec *(by Goerge)* for sale. If you know anyone who might be interested, please give them my contact details.
